Stormwater Management and Erosion Control Permit Application Checklist

- A completed Stormwater Management and Erosion Control Application.
- A check to cover Stormwater Management and Erosion Control Fees per Resolution 2003 F, payable to the Town of Eatonville.
- Stormwater Management and Erosion Control Site Plot Plan drawn to scale with a description of the project, including the area to be graded, filled, excavated, cleared, or ditched, the amounts of fill, heights of cuts and slopes, type of material imported and any impervious surfaces to be created. The plot plan must show the drainage of the site and all proposed erosion and sediment controls to be used during the entire development process. Please show methods, i.e.: silt fencing, fabric ground cover, silt pond, vegetative buffer, etc.
- A SEPA checklist is required if the application is part of an overall change in land use, i.e. conversion of unbuilt lands to buildable lots. Please note that a SEPA application requires a determination of the part of the town including a public comment period. Permit should be issued within 30-45 days after receipt of application. When SEPA is required, the checklist and subsequent determination must be completed prior to the commencement of any earthwork and also as part of a plat or PUD application. SEPA may be done combining these two procedures into one review or on two occasions with two separate reviews. (A SEPA checklist is not required for a building permit application)
- State of Washington Department of Natural Resources Forest Practices Application and a check for \$500.00 payable to WA DNR. Required if:
 - You are cutting more than 5,000 board feet of lumber;
 - The lumber is being taken to market; or,
 - The total amount of land (including all contiguous parcels) is greater than 2 acres.

* Please go to <http://www.dnr.wa.gov> for instructions when filling out this application.

The removal of hazard trees; that is a tree within 1.5 tree lengths from a structure does not require a permit provided that the trees do not go to market and that the stumps are left in the ground.

The removal of 1 tree including stump provided that none of the timber is taken to market and that the total area of disturbance is less than 1000 square feet is permitted without a permit.

- A large Envelope and \$0.60 postage if you are submitting a forest practices application, to send application and permit to Washington State Department of Natural Resources.
- Prior to the issuance of a Stormwater Management or Erosion Control Permit, the town must inspect and approve the installation of all erosion control devices installed as indicated on the site map.
